## HAIRTHREAD VIDEOS

Watch [HairThread 101](#), a great introduction to the HairThread collections and colors. Our [video collection](#) also has step-by-step informative and instructional hairstitching videos to check out!

## HAIRTHREAD HISTORY

Creator and CEO [Paula Patrice](#) saw the hair stitching trend emerging as she traveled the world modeling for top designers and retailers. [Click here](#) to read more about the history of HairThread.

## stitching starter kit

everything you need to jump into hairstitching! includes eight spools of thread (30 total yards), five needles (4 standard, 1 medium), precision snippers and instructions.

"I'm excited about these new products from HairThread. They give my stylists so much more to offer our clients," says master stylist Nick Arrojo. "The metallics offer a subtle glimmer that makes an evening hairstyle look special rather than ordinary. On the runway it has added a real edge to both tailored and avant garde hair. We can provide that off the runway too."

"Everyone wants to leave the salon looking a little bit different or more 'done'. It's a status thing. They want to look like they spent big bucks. With HairThread it's possible for stylists to create a million different looks by mixing and matching the colors so each client has a totally unique style. And it works on short hair!"
